

# Lesson #14 - Financial Reports

---

## Accounting in Jackrabbit - An Overview

Jackrabbit uses cash accounting for the purpose of reporting (recognizing) revenue, while still allowing you to track your Accounts Receivable.

- ★ Fees such as tuition fees, registration fees, etc. are posted to your family's accounts, but are not reported as revenue in Jackrabbit until those amounts are paid.
  - ★ Family account balances increase when fees are posted (debit transactions) and decrease when payments are received (credit transactions) or account credits are posted (credit transactions) .
  - ★ A listing of all family balances is easily created using one of Jackrabbit's Accounts Receivable reports.
- 

## Cash Accounting vs Accrual Accounting

In accounting, the two most common forms of recording financial transactions are using cash accounting or accrual accounting. The difference between the two approaches is all about timing.

---

Cash Accounting	VS	Accrual Accounting
		
Revenue is recognized when payment is received and expenses are recorded when payment is made; money changes hands.	?	Revenue is recognized when it is earned and expenses are recorded when they are incurred; money doesn't always change hands.
Simple		Easy financial forecasting
Accurate picture of cash flow		Accurate picture of true profit
Tax benefits		Compliant with GAAP
Less accurate		Complex
Less insight into long term trends		Less accurate short term view
Not compliant with GAAP		Subject to more rules and regulations

## Jackrabbit's Role in your Business Accounting

Jackrabbit is a class management and Accounts Receivable program. Expenses are not tracked in Jackrabbit, this is done in your accounting program, e.g. QuickBooks.

Using the financial reports offered in Jackrabbit, or the [QuickBooks integration](#), your revenue must be entered into your accounting system to give you the full financial picture.

Adjustments may be necessary if you use accrual accounting outside of Jackrabbit.

## Reports

Jackrabbit offers great flexibility in reporting with over 100 reports for families, students, classes,

staff, enrollment, financial information, and more!

These reports come in a few different formats.

Some reports are built to display in different output formats including PDF, Excel, and Word.

- These reports are customized using display settings. Select Excel or Word as the output format and use those programs to make any further customizations.
- Examples: [Deposit Slip](#) and [Paid Fees](#)

Learn more about [Report Output Formats](#).

New Jackrabbit reports are being created in a **Grid** format. Reports in table format will be gradually moved to grid format. The grids are robust and allow you to do much more with your data!

- Grids are customized by grouping your data, arranging the order of the columns, filtering for specific information, and more.
- Examples: [Student Detail Report](#) and [Staff Certifications](#)

# The Reports Menu

Jackrabbit offers great flexibility in reporting with over 100 reports for families, students, classes, staff, enrollment, financial information, and more. All reports can be accessed from the *Reports* menu.

There are a few different ways for you to navigate through the reports to find the one you are looking for:

• <b>Report Categories &amp; Tabs</b>	Reports are organized into categories based on the area of Jackrabbit they relate to.
• <b>Find Reports</b>	Search by keyword to locate your report.
• <b>My Reports</b>	Customize your Reports menu to create quick and easy access to your most frequently used reports.

These tables can be customized by sorting, showing or hiding columns, and more. Many of the tables offer column search fields allowing you to quickly locate the information you're looking for.

📌 Use Search Fields to Locate Information in Reports

[Expand/Collapse All](#)

📌 Sort Your Report Data Using Column Headers

📌 Button Options in Reports

📌 Show/Hide Columns

The table format is gradually being updated to a new, more powerful, grid format. All new reports in Jackrabbit will be created using the [grid format](#).

## Work with Reports - Grid Style

Throughout Jackrabbit, you will see grids, which are sometimes referred to as tables. These grids display the data you have entered into Jackrabbit; they are incredibly robust - allowing you to group, sort, filter for specific information, and more. **Note: the features available in each grid throughout Jackrabbit may vary.**

## 📌 Sort and Filter Data in the Grid

## Take Action

## ☑ Data Visuals

When you are working with the [All Families](#), [All Students](#), or [All Classes](#) grids, you can save all of your grid customizations as a favorite that you can make your default view. Learn how to [Save & Load Your Favorite View](#).

## Favorites - Save your Report Criteria Selections

Saving the criteria for reports is a huge time saver and is available in most Jackrabbit reports. We refer to them as **Favorites** and they are used to store regularly used search criteria and display settings for reports. Favorites allow you to quickly recall your selections; there is no need for you to select the same criteria every time you run the report.

Favorites also contribute to your reporting accuracy and ensure consistent reporting. When you save your criteria selections as a Favorite you can create your reports quickly and with confidence, knowing that the same data is being pulled into the report each time it's run.

Create and name multiple Favorites with any combination of criteria and settings. A Favorite can be *Public* (shared with all User IDs) or *Private* (only available to the User ID that created the Favorite).

## PDF

*Portable Document Format* is the standard for the exchange of documents across different formats. When a document is saved as a PDF file, it is converted to PDF, it looks the same way it would if you printed it. A PDF viewer, such as Adobe Reader, is required to view a PDF file.

## Excel

*Excel* files are spreadsheet files and are generally used with Microsoft Excel.

## HTML

*Hypertext Mark-up Language* is the standard language used to create web pages.

## RTF

*Rich Text Format* is a document file format used by Microsoft products, such as Word and Office.

## Text

*Text* Files generally are pure text with very little formatting. Files saved as .txt files can generally be read by any program that is capable of reading text.

## Tiff

*Tagged Image Format Files* is most often used with graphic, image, and desktop publishing programs but can be used on any operating system.

## Financial Reports - An Overview

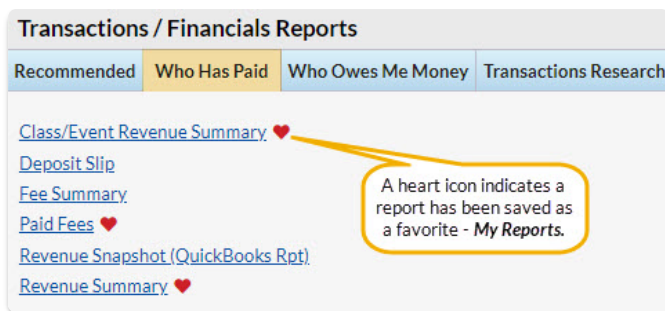

Financial Reports are found by pointing to the *Transactions (menu) > Transactions Reports*. There are several reports, all of which display the information differently based on a variety of search criteria (filters) and display settings available.

---

## Revenue Reports (Who Has Paid)

This group of reports provides you with information related to fees that have been paid.

- ★ The **Class/Event Revenue Summary** report is used to gauge income associated with a specific class or event.
  - ★ The **Deposit Slip** report is perfect for daily reconciliation.
  - ★ The **Fee Summary** report allows you to see the current status of fees in a selected Category 1 or with a specific Transaction Type.
  - ★ The **Paid Fees** report is helpful for finding uncategorized revenue or to view taxes paid for the selected date range.
  - ★ The **Revenue Snapshot (QuickBooks Rpt)** is beneficial, even without QuickBooks, to see revenue by payment method and Category 1.
  - ★ The **Revenue Summary** report will show the discounts given within a date range.
-

## Accounts Receivable/Collection Reports (Who Owes Me Money)

This group of reports provides you with information for families who have fees that have not been paid.

- The **Aged Accounts Details (Aged Fees)** report is a traditional accounts receivable report.
- The **Aged Accounts Summary** can be used to email families with an outstanding balance.
- The **Family Balance Summary** helps you supply your accountant with month or year-end balances for each family.
- The **Fee Summary Report** allows you to see the current status of fees in a selected Category 1 or with a specific Transaction Type.

## Maintaining Accurate Revenue Reports

A clear understanding of how to record revenue is critical for your business. Before you can verify your revenue reports are accurate, you should make sure you are comfortable with Jackrabbit concepts. These are the foundation to understanding and maintaining accurate revenue records in your database.

- **Linking fees and payments**
- **Unapplied and applied payments**
- **Category 1**

**Revenue reporting** should be a priority to ensure all of your family accounts are accurate. You can complete revenue checks and balances daily, weekly, or monthly - there is no rule! However, you should add this task to your regular routine. Check out some methods our customers have found helpful in keeping current revenue records.

## Find Unlinked Transactions

For consistency, choose a day of the week or month and add a recurring reminder to your calendar. On this day, run a [Search Transactions](#) report to check for transactions that need to be linked. The report allows you to find payments that have not been linked (applied to a fee), keeping the revenue from being placed in the wrong revenue bucket. When you find these, link them so your revenue reports are accurate.

You may find payments that do not have a fee to apply to. Not to worry! This means the family has a credit and you will be able to apply the payment after a fee is posted.

If you have not used this search before, you may have old transactions that require clean up. Try searching with a date range that spans the length of your time with Jackrabbit. **Start with the oldest transactions and clean those up first.** Once you are current, make sure to do this regularly (daily, weekly, or monthly).

## Benefits of Keeping Your Revenue Clean

If you make revenue checks and balances a priority, you can ensure these benefits for your business:

- Reporting is accurate.
- Forecast future income with your revenue reports.
- Analyze revenue reports to show the growth of your organization.
- Collecting unpaid fees will be easier for you when your families can easily see which fees are unpaid through the Parent Portal.

When looking at a family's page, you don't want to see transactions that are pink (*unpaid fees*) AND green (*unapplied credits*). This means you have some linking to do! Just pink OR just green is fine.

After you become familiar with transaction linking, you will be able to quickly spot transactions that need clean up.

## REVENUE REPORTS:

Below are articles on Jackrabbit's revenue reports -*Class / Event Revenue Summary Report, Deposit Slip Report, Payment Method Summary Report, Fee Summary Report, Paid Fees Report, Revenue Snapshot Report, and Revenue Summary Report.*

## Class/Event Revenue Summary Report

The **Class/Event Revenue Summary** report displays all revenue based on filters (Search Criteria) you select that is associated with a Class/Event such as Tuition Fees, Costume Fees, Competition Fees, Taxes, etc.

Get to this report from the **Transactions** menu > **Transaction Reports** > **Class/Event Revenue Summary**.

- ★ View average revenue per student.
- ★ Determine which classes were most profitable and which ones had a lower average revenue.
- ★ Format the report to show one line per Category 1 (Cat1) per class/event, or as a summary with one line per class/event.

## Search Criteria

Use the Search Criteria to narrow the report results:

- If you have multiple locations in your database, you have the option to look at revenue based on the location on the family's record and/or the location where the class or event is held using the *Class/Event Location* criteria.
- Look at class/event revenue for a specific *Class Session*, selected *Category 1*, or use *Select Class* to review revenue for a particular class.
- Review payments received on a single date or for a range of dates. The date criteria are required fields.

### Report: Class/Event Revenue Summary

This date criteria will pull revenue paid during the Summer months.

Leaving a criteria selection blank is the same as saying "all".

## Display Settings

Use the Display Settings to format your report:

- Calculate the enrollment as of a specific date or over a range of dates where the count is the highest number of students that were enrolled during that time. The enrollment criteria are required fields.
- Choose whether you want to see a separate line for revenue by Category 1 for each class/event (*Detail*) or you prefer to see only one line for all revenue in the class/event (*Summary*).
- You can opt to include any refunds issued for payments related to class/event fees or omit them.
- Sort the report either by Class, then Category 1, or by Category 1, then by Class.

The screenshot shows the 'Display Settings' form. It includes fields for 'Enrollment (as of) from' (7/1/2023), 'through' (8/31/2023), 'Report Type' (Summary), 'Include Refunds' (Yes), and 'Sort by' (Class, Category 1). A yellow callout box points to the date range with the text: 'When looking at enrollment for a date range, the count will be the number of students during that time frame.'

## Report Results

The report results can be further customized with the ability to show or hide columns of information, sort columns, or modify column width. **Note:** Depending on the width of the report, reduce the size/scale of the report so all the columns print.

- The **Avg Revenue Per Student** is calculated as the revenue for the date range chosen divided by the enrollment for the selected time frame. Revenue displayed per student does not include discounts.
- Use the **Class/Event** link to quickly navigate to the class or event record.
- Click **Adjust columns > Squeeze grid**  to view the entire grid on the page.
- Click the **Refresh Grid** (icon)  to update results in the grid.
- Click the **More** (icon)  to print or export the data to Excel.

## Paid Fees Report

The **Paid Fees** report displays revenue by *Category 1* with a breakdown by *Transaction Type* for a specific day or time period. This report can be viewed as a summary or in detail.

Get to this report by going to the **Transactions** menu > **Transaction Reports** > **Paid Fees**.

- ★ Adjust payments that were received after the cut-off date for a revenue period, e.g., month-end or year-end.
- ★ Locate uncategorized or improperly categorized payments.
- ★ Report on taxes paid within a specified date range.

Use this report to determine the amount of tax collected during the year or for a specific period. Run the report, and the total tax collected for the timeframe selected will be displayed in the report. When partial fees are paid, the tax displayed will adjust for the amount paid.

- 
- ☑ Select Search Criteria
  - ☑ Choose Display Settings
  - ☑ Work with Report Results

## Revenue Snapshot Report

The **Revenue Snapshot** report displays revenue by both *Payment Method* and *Category 1*. The report can be found under the *Transactions (menu) > Transaction Reports*.

- ★ Backup journal entries were created using Jackrabbit's integration with QuickBooks.
  - ★ Analyze each day's revenue by Payment Method and Category 1 with ease.
  - ★ View revenue subtotals for each Category 1 for the specified date or date range.
- 

## Search Criteria

Use the Search Criteria to narrow results down to the payments you want to work with.

## Revenue Reconciliation Reports

Jackrabbit's Revenue Reconciliation reports are an indispensable tool when you have **multiple Business Locations** in your database!

You can find these reports under the *Transactions* menu. Go to **Transactions (menu) > Transaction Reports > Revenue Reconciliation Reports**.

- ★ Reconcile revenue between where payments were received and where revenue was earned.
- ★ Analyze revenue by Family or by Business Location using four report options: **Reconciliation Summary**, **Location Summary**, **Revenue by Location**, and **Revenue by Family**.

When you have a single Business Location in your database, the only report option available is the **Revenue by Family**; the other three options relate to multiple Location revenue reconciliations.

Using the following example, we'll step through each of the four report options:

- An organization has two Locations, Location 1 and Location 2. The physical locations are very close to each other, and many families have students taking classes at both.
- Each Location is managed by a different business partner, and revenue is routed to separate bank accounts based on the Location of the family making the payment.
- The Family Location for the Hallman Family and the Snyder Family is **Location 1**.
- The Snyder Family has a student taking one class at Location 1 (\$120); they made a payment of

**\$120** for the February tuition, and it was deposited into the **Location 1** bank account.

- The Hallman Family has a student taking one class at Location 2 (\$60); they made a payment of **\$60** for the February tuition, and it was deposited into the **Location 1** bank account.
- The Paid Fees Detail report for all Locations reflects both payments and total revenue of **\$180**.

## ACCOUNTS RECEIVABLE / COLLECTION REPORTS:

Below are articles on Jackrabbit's accounts receivable/collection reports -*Aged Accounts (Summary) Report, Aged Accounts (Details) Report, Family Balance Summary Report, and Statements/Invoices.*

### Aged Accounts Summary Report

The **Aged Accounts Summary** report provides a breakdown of unpaid fees by family. The unpaid fees are divided into various buckets: 0-30 days old, 31-60 days old, 61-90 days old, and older than 90 days. This report is known as an Aged Accounts Receivable report in the accounting industry.

This report can be found under the **Transactions** menu > **Transaction Reports**. In addition, the report can also be accessed from the [Aged Accounts on the Executive Dashboard](#)

- ★ Evaluate the health of your Accounts Receivable.
- ★ Expedite collection efforts with the ability to email families directly from the report results.
- ★ Create a listing of all **Problem Accounts** and the details of their outstanding fees.

## Select Search Criteria

### Aged Accounts Summary

[← RETURN](#) [✓ SUBMIT](#)

Search Criteria [🔍 Favorites](#) [🔖 Save Favorites](#) [✕ Refresh](#) [?](#)

This report displays aged accounts information (30, 60, and 90 days past due) for each family.

Do you want to show all families or only those with unpaid fees?

☐ Show all families

☒ Only show families with unpaid fees

Location

Problem Account

Balance from  through

[✓ SUBMIT](#)

Select Only show families with unpaid fees for this report.

As a default, this report is created with the *Balance from* defaulted to \$1. If you have many families who regularly maintain a credit balance, for example, if they often make prepayments, you will want to change it to -\$5,000, so those families will be included in the report.

## Work with Report Results

The report results will list any family with a balance owing greater than \$1. You can use the last column to select all the families and click the **Email** button to send a reminder email directly from the report.

## Aged Accounts Summary

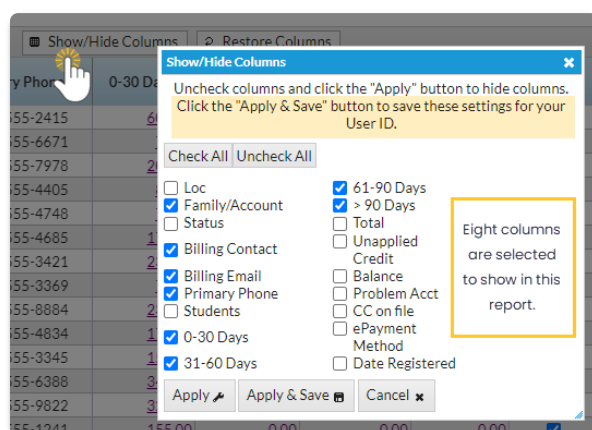

Customize your report by showing or hiding columns of information.

# Aged Accounts Details Report

The **Aged Accounts Details** report provides you with a list of aged unpaid fees by family using the filters (Search Criteria) you select. Fees age from their transaction date and are listed by the number of days owing.

Get to this report by going to the **Families** menu > **Family Reports**.

- ★ Create a detailed listing of aged unpaid fees by family, including balances. Accountants refer to this as an Aged Accounts Receivable report.
  - ★ Generate a report of aged unpaid fees that were posted during a specified time period.
  - ★ Streamline collections by filtering for overdue fees and email the families directly from the report results!
- 

## Search Criteria

You can filter your list of families using any or all the Search Criteria, and Jackrabbit will compile a report of families who meet ALL of the criteria selected. For this example, we will filter for families with unpaid fees older than 90 days.

This report displays unpaid fees based on search criteria below.

### Family Search Criteria

Do you want to show all families or only those with unpaid fees?

☐ Show all families  
☒ Only show families with unpaid fees

Family Location

Family Status

Age of fees in days

Balance from  through

ePayment Method  ePayment Schedule

Enrolled in Class Category 1  Class Session

Select Family

### Transaction Search Criteria

Fee Date from  through

Transaction Type   
Annual Membership (Debit)  
Birthday Party (Debit)  
Booster Fee (Debit)

Session

Fee Amount from  through

Always be sure a family's payments have been properly applied to fees. Fees that do not have a payment linked to them will be included in this report because they are still considered unpaid. See [Fee Linking Explained](#) for more information.

## Report Results

Review the results and use the checkbox in the last column to select the families to email. Click the *Email* button to quickly generate an email to all or the selected students in the report.

- Use the active links in the report to go to the Family record.
- **Show/Hide** the columns as needed. In this example, 4 columns are hidden.
- Report results can be customized with the ability to sort columns, and modify column width.

**Note:** There are two *Balance* columns: *Balance* and *Balance As Of (date)*. The *Balance* column is **not** date-dependent and is the current balance. The *Balance As Of (date)* column **is** date-sensitive and will vary depending on the search criteria you enter. In this example, **no** *Balance As Of (date)* was entered, and both columns show the same amount.

A history of emails sent from this report is kept in the *Family* record, *Misc* tab > *View Sent Emails* for 365 days.

## Email Multiple Statements / Invoices

Use this report to customize statements and email them to multiple families at once. This may include using the Search Criteria to generate statements by **Enrollment Status** and by Category 1, 2, or 3 as needed.

**Note:** Select one or more Categories, Students, Transaction Types, and Sub-types by holding down the CTRL key.

1. Go to the **Families** menu > **Family Reports** > **Statements - Email**.
2. Use the *Family/Account Search Criteria* to select the families whose statements you want to email. If you leave all the criteria blank (with *Enroll Status = Currently Enrolled*), you will get a complete list of enrolled families. You can narrow down the selection:
  - Select Single Family Account with the option to select one or more students when you check off *Email Statement by Student(s)* and select the students from the drop-down list.
  - Select Families Enrolled in Class (search for a specific class).
  - Select Families Enrolled with Instructor (select an instructor from the drop-down list).
3. Use *Transaction Search* to narrow down the types and dates of transactions you want to appear on the statement.
4. Use the *Format Options* section to create the 'look' of the statement by selecting which family and transaction information to include. Logo, header, and footer settings are also customized here.
  - If you regularly use the same Statement Header and/or Footer, you can create defaults in *Gear (icon) > Settings > General > Statements (left menu)*. If you need to change the default for one set of statements only, you can edit the header/footer while on the *Statements - Email* screen.
5. Define reply and blind-copy email addresses in the *Email Information* section of the *Format Options*. A *Reply To Address* is required. An email subject and header can also be added here.
6. Click the **Preview Email Statements List** button (top left). This is a preview only. No emails are sent until you click *Send Emails*.
7. Review the statement list. Note that families/accounts that have no *home* email address listed under the contact that has *Billing Contact=Yes* will display but with no checkbox to send.
  - Click the **View** link to review specific statements.
  - Click the **Delete** link to delete a specific statement.
  - Determine which statements to email by either selecting **Check All Rows** or checking specific family/account **checkboxes**.

## Print Multiple Statements / Invoices

Use this report to generate statements to fit your organization's needs. This may include using the Search Criteria to print statements by **Enrollment Status** and by Category 1, 2, or 3 as needed.

**Note:** Select one or more Categories, Students, Transaction Types, and Sub-types by holding down the CTRL key.

1. Go to the **Families** menu > **Family Reports** > **Statements-Print**.
2. Use the *Family/Account Search Criteria* to select the families whose statements you want to print If you leave all the criteria blank, you will generate a report with statements for all currently enrolled families, or you can narrow down the selection:

- Select a specific Family/Account with the option to select individual or multiple students when you check off *Print Statement by Student(s)* and select the students from the drop-down list.
  - Select Families Enrolled in Class (search for a specific class).
  - Select Families Enrolled with Instructor (select an instructor from the drop-down list).
3. Use the *Transaction Search* section to narrow down the types and dates of transactions you want to be displayed on the statement.
  4. Use the *Format Options* section to create the 'look' of the statement by selecting which family and transaction information to include. The logo, header, and footer settings are also customized here.  
**Tip:** If you regularly use the same Statement Header and /or Footer, you can create defaults in the *Gear icon > Settings > General > Statements (left menu)*. If you need to change the default for one set of statements only, you can edit the header/footer while on the *Statements - Print* screen.
  5. Click **Submit**.
    - Statements will be created based on the settings you've chosen and opened in PDF format so that they can be printed on 8 1/2 x 11 paper.
    - Printed statements fit into a #10 window (business size) envelope for mailing.

*Balance Due Upon Receipt*

1

Return address is set by going to the *Gear menu > Account > My Account > Organizational Details*.

2	The family email address is taken from the contact who has <b>Billing Contact</b> set to Yes.
3	Organization logo can be added from the <i>Gear menu &gt; Settings &gt; General &gt; Organization Logo (left menu)</i> .

## Frequently Asked Questions

Expand/Collapse  
All

**Time Saver!** Save your settings for frequently used statement settings. See [Favorites - Save your Report Criteria Selections](#) for instructions.

## Print or Email Individual Statements / Invoices

To print or email a single statement for a specific family/account, click the **Statement** button in the family's record. Click either Printed Statement (PDF) or Email Statement in the *Pick Statement Type* pop-up box.

The family name will be pre-filled with either option.

- If you clicked **Printed Statement (PDF)**, follow Steps 3-5 in the [Print Multiple Statements/Invoices](#) article. If you want to select one or more students in a family, check off **Print Statement by Student(s)** and select the students from the drop-down list.
- If you clicked **Email Statement**, follow steps 3 - 8 in the [Email Multiple Statements/Invoices](#) article. If you want to select one or more students in a family, check off **Email Statement by Student(s)** and select the students from the drop-down list.

## QUIZ - Lesson #14 - Financial Reports

When you have worked through all of the articles outlined in the lesson, select the **Take the Quiz** button to be taken to the Lesson #14 Quiz where you can test your understanding of the concepts in this lesson. You will be asked to enter an email address for quiz results to be sent. The quiz includes Review questions.

## Quiz #14 - Financial Reports

**TAKE THE QUIZ**

Number of Questions	Total Possible Points	Points Needed for an "A"	Points Needed for a "B"	Points Needed for a "C"
11	14	12	11	9
