Lesson #3 - Enroll/Register Students into Classes

Review (Optional)

The third lesson in this Learning Series, Front Desk Staff, is designed to get you familiar with enrolling/registering students in classes. You may wish to review the articles listed below before beginning.

The review articles in the bullet list below will open the Help article in a new tab. When you are finished reviewing the material, close the tab and return to this page to access the next article using the links below.

- Active vs Inactive Families
- Work With All Families View, Search, and Mass Actions
- Work with All Students View, Search, and Mass Actions
- Search for People in your Database
- Enroll a New Family/Student with Quick Registration/Add Family

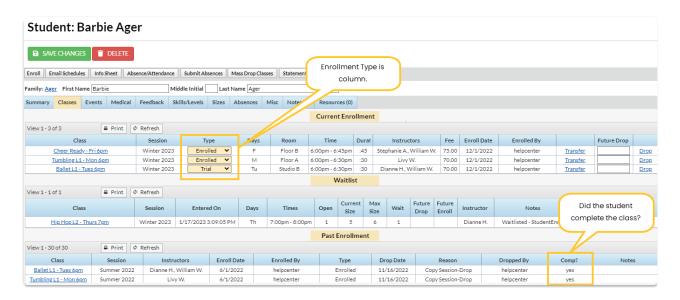

Understand Enrollment Types

In the *Student record > Classes tab* you will see the enrollment type for the class. The drop-down list can be edited on the Drop-down List Editor page (*Gear icon > Settings > General > Drop-down Lists > Student > Enroll Type*). Some Enrollment Types (reserved) are the ones that Jackrabbit has created and cannot be deleted. You can create additional ones that match the needs of your business.

Enrollment Type	Description		
Enrolled	If the student is currently enrolled in anActive class, their Enroll Type = Enrolled and Class(es) appear in the Current Enrollment section of the student's Classes tab.		

Drop	The student did not complete the class. The student was dropped beforethe class was completed using the <i>Drop</i> link. This is considered a 'true drop' and will appear on the <i>Drop History Report</i> . If a student is dropped from a class, the class appears in the <i>Past Enrollment</i> section of the student <i>Classes</i> tab. <i>Note:</i> It's important to archive classes (rather than drop students from class after it ends) so that reports will only display 'true' drops. See Archive Classes.		
Transfer	A student is considered transferred when they have been moved from one class to another. This creates a <i>Past Enrollment</i> record, but this is not considered a drop. It is treated as a <i>Transfer</i> and does not negatively reflect on the school/class/teacher and is excluded from the drop reports.		
Trial	The ability to enroll in a class as a trial is a per-class option. When a student enrolls into a class on a trial basis, their <i>Enroll Type = Trial</i> . See Trial Enrollm		
Trial-Enrolled	If a trial student enrolls in a class, it is good practice to change the studentEnroll Type to Trial-Enrolled. See Trial Enrollment.		
Waitlist	The student has been placed on the class waitlist. Technically, they are not enrolled in the class and a staff member must enroll them. Refer to Enroll a Student from a Waitlist for more details. The class will be listed in the Student record in the Waitlist section.		

Sample Student Record > Classes Tab

In the *Past Enrollment* section (*Student Classes tab*), the **Comp?** column indicates whether the student completed the class (**Yes**) or did not complete the class **No**).

Methods for Staff to Enroll a Student

There are many ways your office or front desk staff can enroll a student in Jackrabbit. This flexibility allows you to choose the most efficient workflow for you and your staff!

Expand/Collapse All

- Enroll Links Throughout Jackrabbit
- Enroll from a Calendar Link
- Use the Quick Registration Form to Enroll
- Open Enrollment Page in All Students/All Classes
- Enrollment Details Window
- Frequently Asked Questions

The number of openings in a class is LIVE and considers all places where a student can be enrolled (Online Registration, Parent Portal, and staff enrolling internally). A student's spot is not confirmed until the enrollment process is complete. An error message will advise if the spot has been taken by another student before the enrollment was completed.

Quick Registration Form - Add a New Family and Enroll New Students in Classes

The **Quick Registration Form** is used by a Jackrabbit User to add a new family and enroll students in the family at the same time.

The Quick Registration Form follows the settings selected for your Online Registration Form. See our Help section Customize your Online Registration Formfor more details.

Fields that are required on your Online Registration Form aren't always required on the Quick Registration Form. Since this form is used internally, it is **not** mandatory for office staff to fill out all fields to keep the process quick!

Access the Quick Registration Form

You can access the Quick Registration Form from the Families (menu):

- Families (menu) > Quick Registration
- Families (menu) > All Families and click the Add New Family (icon) . Click the Use Quick Registration Form (button) in the Add Family window.

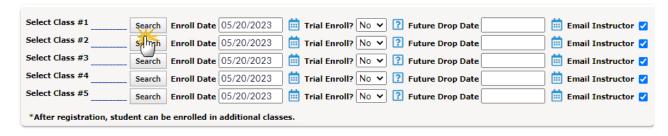

Add a Family in the Quick Registration Form

Complete as much of the Family Information section as possible. This will eliminate the need to add more details to the Family record at a later date. There are some required fields designated with an asterisk (*).

Add Students and Enroll through Quick Registration

You can add up to 5 students in the Student Information section. Enter as much of the information as possible into the form. This will avoid additional work later on.

Use the **Search** button to search classes. Office staff can select up to 5 classes per student during the Quick Registration process. Additional classes can be added as needed after registration is complete.

The options for enrolling during Quick Registration vary:

- If Allow Trial Enrollment is set to Yes on the selected class' Summary tab, you'll have the option of indicating whether or not the student is a **Trial Enroll**.
- If Allow Future Enrollments is set to Yes under the Gear (icon) > Settings > General > Organization
 Defaults (left menu) > Class Settings, you'll see an option to adjust the Enroll Date and add a Future
 Drop Date.
- If Send Enrollment Email to Instructors is set to Yes under the Gear (icon) > Settings > General >

Organization Defaults (left menu) > Class Settings, you can clear the **Email Instructor** checkbox when you don't want instructors to receive an email. See our Help article, **Organization Default Settings - Class Settings**, for more information.

Continue adding information and enrolling students in classes using the additional **Student Information** fields.

If you've entered an email for the contact(s) and want them to receive an email confirmation of the registration, be sure to select the **Send Email Confirmation** checkbox at the bottom of the form.

Enter Payment Information & Post Fees

In the *Credit Card Verification* section, enter the Credit Card or eCheck/Bank Draft information to be used for payment.

After all required information is entered, click**Submit Registration Information**. The **Post Enrollment Fees** window opens, and you have the option to post all fees immediately, check the classes to post fees for, add Registration Fees, and add Additional Fees.

Once all the fees are selected or added, select one of the buttons to complete the enrollment:

- Post Selected Fees Now
- Post Selected Fees & Pay Now
- Skip this... I'll Post Fees Another Time.

The family is added to your system, and any students with classes selected have been enrolled accordingly.

Policy Agreements cannot be accepted using the Quick Registration Form! To adhere to the Electronic Signature Act of 2000, a parent must log in to the Parent Portal to provide an E-Signature for company policies.

Work with All Classes - View Search, and Take Action

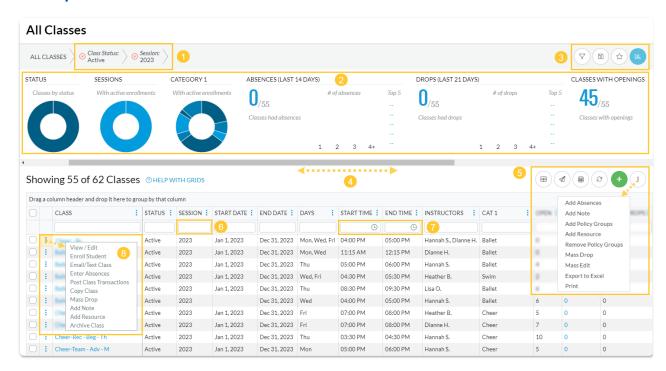

Permissions control your Users' ability to see certain data and take specific actions. Before proceeding, review User Permissions for All Classes.

All Classes, located under the Classes menu, generates a list of all active and inactive classes in the All Classes grid. From here, you can access all your class data.

- ★ View optional data visuals for key information at a glance with interactive charts.
- rill down to specific classes using filters organized in a slide-outfilter drawer.
- ★ View classes in a filtered calendar (daily, weekly, or room view) and enroll students.
- Save your favorite view (filters, selected columns, etc.) as your default view.
- nisplay a list of classes in a powerfulgrid: you can group, sort, and customize the information.
- ★ Take Action add/copy classes, enroll students in classes, send messages, archive classes, and apply mass actions to multiple classes.

Sample All Classes Grid

- 1 Breadcrumbs display the currently selected filters (from the Open Filters icon).
- 2 Interactive Data Visuals provide class information at a glance.
- 3 Icons: Open filters (filter drawer), Save as favorite, Favorites, Hide/Show Data Visuals.
- 4 Horizontal Scroll Bar scroll to view more Data Visuals.
- Orange Construction
 Icons: Adjust columns, Send a Message, Filtered Calendar, Refresh Grid, Add New Class, More

- actions (drops down a menu).
- 6 Column Search enter a term in the search field for each column to locate specific records. For e.g., enter 2023 in the Session Column Search field to find all classes with that Session value.
- 7 Use the Time Selectors to search for classes that start or end during a specified time. For e.g., search for classes that start between 3:00 pm 5:00 pm or classes that end after a specific time (enter a From date and leave the To field blank).
- 8 Row Menu use the row menu to perform an action for a single class.

Click the Adjust columns icon (see #5 above) to squeeze the grid columns closer together. You will be able to see all the columns in the grid.

Expand/Collapse All

- Data Visuals Key Information at a Glance
- Use Filters to Search for Specific Classes
- Save your Favorite Filtered Grid Views
- View the Classic Class Calendar and Enroll Students
- Work with the Information in the Grid (Table)
- Take Action for a Single Class
- Take Action for Multiple Classes (Mass Actions)
- Frequently Asked Questions

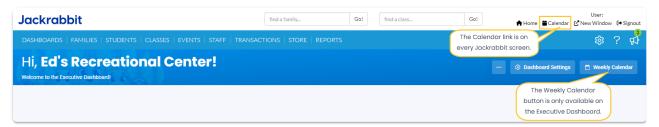

The Send Message icon acan be used to sendemails, text messages, and push notifications (through the Jackrabbit Plus mobile app) to a single class or to multiple classes.

The Classic Weekly Class Calendar

The Weekly Calendar button on the Executive Dashboard opens a calendar view of your classes by week. This is your class command center and allows you to manage almost all areas of your classes from one screen! *Note:* The Classic Weekly Class Calendar is for internal use only, it is not available to your families.

You'll also have access to the Classic Weekly Class Calendar using the Calendarlink above the blue menu bar on all screens in Jackrabbit.

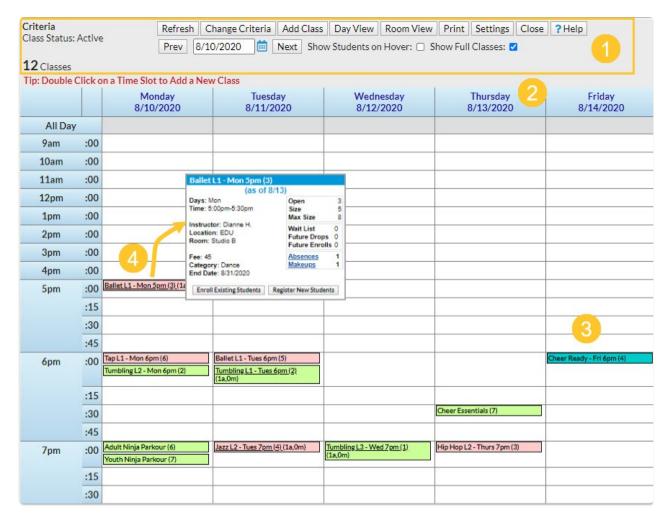

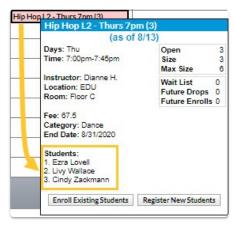

The Classic Weekly Class Calendar, along with daily, monthly, and room views, shows only your class offerings. The Activity Calendar, however, gives you a full view of both classes and events. You can easily access it using the Weekly Calendar button or the Calendar link. If you're still transitioning to the Activity Calendar, you might see the Classic Weekly Class Calendar by default; select the Activity Calendar button to switch.

Classic Weekly Class Calendar Features

The Classic Weekly Class Calendar opens in a new window and displays a week-long calendar of classes.

- 1. Calendar Criteria and display buttons allow you to customize your calendar view.
 - When first opened your Classic Weekly Class Calendar will bring up the current week's schedule with no criteria selected (no filters applied, all classes showing).
 - Use the **Prev** and **Next** buttons, or the **date field**, to change the week you are viewing.
 - The currently selected criteria are displayed.
 - Use the Change Criteria button to edit those selections.
 - Use the Add Class button to quickly add a class. You can also add a class by clicking into a specific time slot.
 - Click the **Settings** button to change the time range that your calendar displays. Set this to your facility's opening and closing time.
 - Select Show Students to add the enrolled students' names to the class information that displays when you rest your mouse pointer over the class on the calendar (hover without clicking).

- The Show Full Classes checkbox defaults to checked to display full classes as well as classes with openings. Clear the checkbox to hide classes that are full which makes it easier to find a class with an opening to enroll a student in.
- Click the link on a date to look at the daily view. The display criteria you have selected will also be applied to that daily view. For more information on the daily view see our Help article Class Calendars and Schedules.
- 3. Review the summary information for each class on the calendar at a glance. Click thdink for quick access to the class record.
 - Class name
 - Number of openings (#)
 - Number of future drops #FD
 - Number of future enrolls #FE
 - Number of absences for that day (#a)
 - Number of makeups for that day (#m)
- 4. Accurate enrollment counts are displayed in real-time! A full class (0) that has a future drop scheduled for the following week will accurately reflect that opening (1) when you advance the Classic Weekly Class Calendar to that date.

More Classic Class Calendar Actions

- Double click into any open**time slot** to add a class. The *Add Class* window will open with the start date and time for the slot that you clicked into pre-selected; these values can be edited. You can also use the *Add Class* button in the Criteria section to open the *Add Class* window with no pre-selection made.
- Click a **link** for any of Future Drops, Future Enrolls, Absences, or Makeups to open a window with more detail including student names.
- Click Enroll Existing Students to enroll an existing student into the class or clickRegister New
 Students to open the Registration Form to add a new family and enroll a student in the class. If the
 class is full you will see CLASS FULL and a Waitlist button to click to add a student to the class
 waitlist. Once the waitlist is also full the button will drop off and you will only see CLASS FULL.
- When the Show Students checkbox (in the criteria/settings section) is not checked private lessons (max size = 1) will display with the enrolled student's name. If Show Students is checked the calendar will display the class name and openings information (0) and the enrolled student's name will appear in the class information window that displays when you hover over the class.
- Classes can display color-coded by Category 1 if you assign colors to your Category 1 drop-down

values in the *Drop-Down List Editor* (*Gear icon > Settings > General > Drop-down Lists*). When darker colors are chosen the text display will change to white. This makes it easy to distinguish between the different types of classes you offer!

6pm	:00		Int Tumbling - Tues 6pm (1)	
	:15			
	:30	Beginner Tumbling (1)	Pointe (1)	
	:45			
7pm	.00	Dolphin - Mon - 7pm (3) Swim Kids L9 - Mon - 7pm (6)	Advanced Tap (3)	Advanced Jazz (0)

Expand/Collapse All

Frequently Asked Questions

The Classes Weekly Class Calendar can be also be accessed from the Classes (menu) > All Classes. Click the Filtered Calendar (icon) and select Weekly from the drop-down list. The Classic Weekly Class Calendar opens in a new window.

Enroll a Student into Classes using Jackrabbit's Classic Calendars

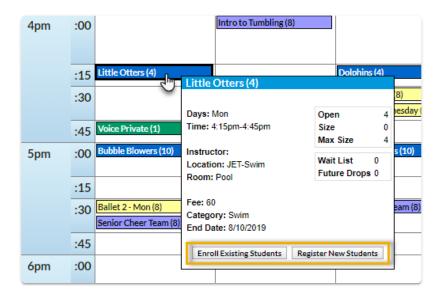

Office staff can enroll students into classes using the Classic Daily, Weekly, or Room Class Calendars in Jackrabbit.

The Classic Weekly Class Calendar is the most popular calendar for enrollment. Access it by selecting the Calendar link in the upper right corner throughout Jackrabbit or using the Weekly Calendar button on the Executive Dashboard.

- 1. Go to the Classes menu > Class Reports > Weekly/Daily/Room Schedule.
- 2. Use the **Search Criteria** to narrow down results as needed.
- 3. Select the calendar view of your choice -Weekly Calendar, Day View, or Room View.

- 4. Hover your cursor over any class to see class details and select**Enroll Existing Students** or **Register New Students**.
 - If the student belongs to a new family that is not in your system, click the Register New Students button. Then, follow the instructions for enrolling a New Student into Classes using Quick Registration.
 - If the student is already in your system, click the Enroll Existing Students button. Follow the instructions for Methods for Staff to Enroll a Student.

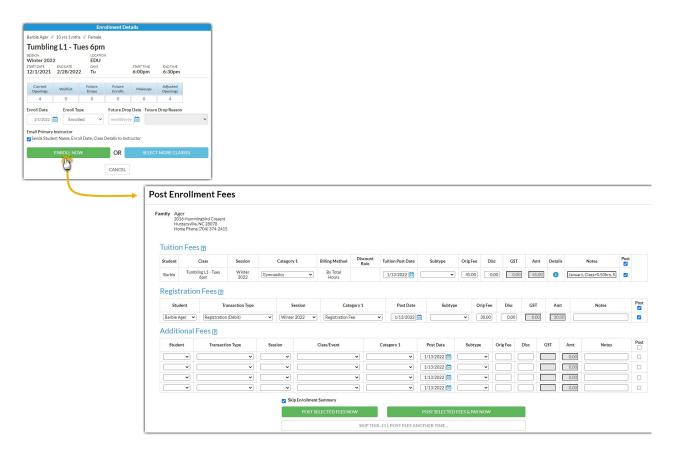

To complete the enrollment process by posting fees, see our Help article, Post Tuition with Enrollments from within Jackrabbit, for more details.

Post Tuition Fees During Enrollment in Jackrabbit

Permissions control the ability of your Users to see certain data and take specific actions. Before moving forward review User Permissions for Posting Tuition Fees.

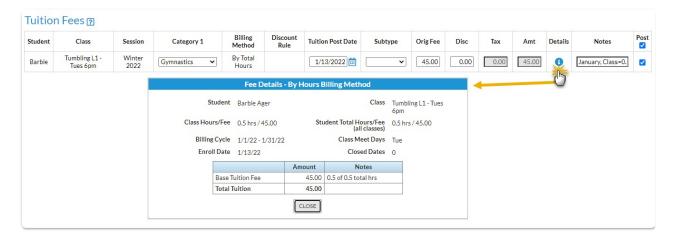

When a student is enrolled in classes from within Jackrabbit, i.e. internally, staff can be given the option to post enrollment fees, including tuition fees. A staff person with the required User Permissions will be taken to the Post Enrollment Fees screen.

When posting tuition fees in the Post Enrollment Fees screen, Jackrabbit uses the settings you've saved in several places to calculate tuition.

- Tax Settings under the Gear (icon) > Settings > General > Organization Defaults (left menu) > Tax Settings.
- Tuition Settings under the Gear (icon) > Settings > Tuition & Discounting.
- Class Settings (Tuition Fee) on the Class Summary tab.

A detailed breakdown of the calculations can be accessed using the icon in the *Details* column in the *Tuition Fees* section.

You can edit the *Tuition Post Date*, *Subtype*, *Orig Fee*, or *Disc* fields as needed. Clear the *Post* checkbox if you do not want to post tuition fees at this time. *Note*: Edits made to the Orig Fee or Disc are not updated in the *Fee Details* window.

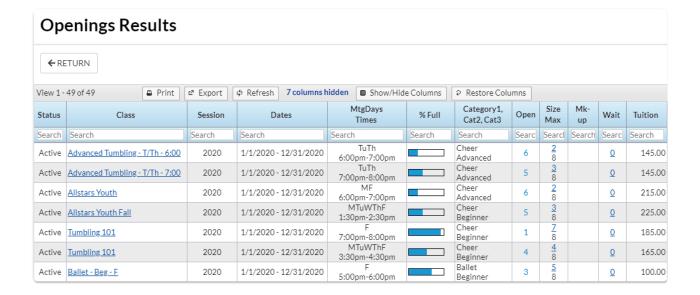

The Post Enrollment screen also provides an opportunity to post enrollment fees other than tuition.

- Registration Fees
- Additional Fees

List Classes with Openings

The **Openings** report provides you with a list of classes that display your classes that have openings. In addition, there is a **% Full** column that displays a graphic representation of how full your classes are. This report can be found under the *Classes* (*menu*) > *Class Reports* > *Openings*.

Some of the columns contain clickable links that open additional information.

Class Schedule

Located in *Class Reports* from the *Classes* menu, the **Class Schedule** report Search Criteria can be used to:

- Display a listing of classes by Location, room, session, instructor, or Category 1, 2, 3.
- Display a list of classes based on specificstart/end dates.
- Display a list of classes w/gender specifications or ages.
- Display a list of *classes* for a specific student.
- Display # of openings in a list of classes.

Example

Process Class Registrations Report

The **Process Class Registrations** report allows you to review all registrations and class enrollments including those coming in through Online Registration, from the Parent Portal, and those done from within Jackrabbit. Additions to waitlists are also displayed.

- Streamline registration workflow and improve efficiency.
- Review pertinent information and process registrations and class enrollments from a centralized location.
- 🜟 Identify families who did not have fees posted with their registration or class enrollment.
- 🜟 Find Parent Portal enrollments and post fees accordingly.

Note: The date range for this report is limited to 60 days.

Expand/Collapse All

- Access the Process Class Registrations Report
- Report Results
- Process New Class Registrations

Edit a Student's Class Enrollment Date

There might be occasions when you need to update a student's enrollment date, perhaps to adjust an enrollment that came in through online registration or to fix administrative mistakes. Don't worry; we've got you covered!

In order to edit a student's class enrollment date, the User must have the Edit Student's Class Enroll Date permission in the Students category. To enable this permission, Allow Future Enrollments must be set to Yes in the Organization Default Settings (Gear icon > Settings > General). Learn more about Permissions for Jackrabbit Users.

- The Rules
- Process Class Registrations Report
- Class Record > Enroll List Tab

Practice - Enroll/Register a Student into a Class

Want to practice what you've just learned? Great!

- Go to https://app.jackrabbitclass.com/jr4.0/Login and log in with the credentials below for your Jackrabbit edition.
- Go through some or all of the practice scenarios below as they apply to you.

Edition	User ID	Password	
Cheer	LMSCheer	Training1	
Class	LMSClass	Training1	
Dance	LMSDance	Training1	
Music	LMSMusic	Training1	
Swim	LMSSwim	Training1	

The Practice Database is refreshed each day at approximately 5:00 am Eastern Standard Time. Anything you enter will be erased at that time.

Enroll a student in a class, you can either:

- All Students page
- Class Record

- Student Record
- Weekly Calendar

QUIZ - Lesson #3 - Enroll/Register Students in Classes

When you have worked through all of the articles outlined in the lesson above, select the Take the Quiz button to be taken to the Lesson #3 Quiz where you can test your understanding of the concepts in this lesson. You will be asked to enter an email address for quiz results to be sent. The quiz includes Review questions.

- Click here to provide feedback for this lesson

Optional Topics - Lesson #3

Review the following articles if they apply to your organization.

Create a Trial Enrollment from within Jackrabbit

Jackrabbit allows you to offer a class as a trial. The ability to enroll in a class as a trial is a per-class option, and the class record must have Allow Trial Enrollment set to Yes on its Summary tab. For more details, see Classes/Lessons.

When a student is enrolled as a trial, the enrollment will be given ar Enroll Type of Trial, which lets your staff know that the student is a trial student. When posting tuition fees, Trial Enroll Types can be excluded, so fees are not posted to those students in trial classes.

If the student completes the trial and wishes to enroll permanently, then you should change their *Enroll Type* to **Trial - Enrolled**. See our Help article **Staff Procedures for Trial Enrollments** for more information.

Trial Enrollments for New Students from Within Jackrabbit

Students can be enrolled as a trial using the Quick Registration Form.

- 1. Go to the Families menu > All Families > Quick Registration.
- 2. Complete the Quick Registration form.
 - Select a Class.
 - Set the Trial Enroll? field to Yes.

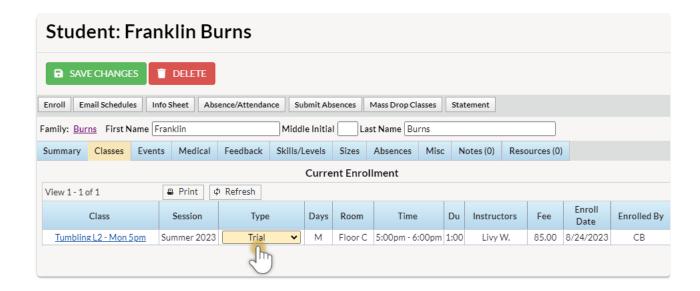

- 3. Select a **Future Drop Date** (if needed) that is the day after the actual trial date so that the student will drop from the class after their trial class automatically.
 - After submitting the Quick Registration, the student's Enroll Type will be set to Trial.

Trial Enrollments for Existing Students from Within Jackrabbit

Students can be enrolled as a trial when you or your office staffenroll students from within Jackrabbit.

If a student has already enrolled in the class, you can also set the Enroll Type to Trial on the student's Classes tab.

Trial Enrollment During Online Registration

If you want to use Jackrabbit's **Trial Enrollments**, you can also offer a class on a trial basis online for new students using the Online Registration Form.

To allow a new customer to be able to select and enroll in a class as a Trial, se**Allow Trial**Enrollment to Yes at the bottom of the Summary tab in the Class record. Online Registration must also be set to Yes. Trials are not available in the Parent Portal; they are only available to new customers using the Online Registration form.

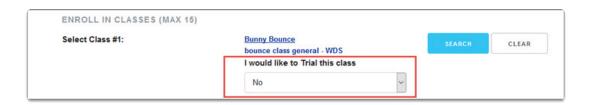

Use the **Classes** menu > **Edit All Classes** to select a group of classes to edit, and then use the Global update section if you want to mass edit multiple classes at once.

You should explain your organization's rules regarding Trial classes for students on your website, as each organization has different rules regarding trial classes.

If the class is set to Yes for *Allow Trial Enrollment*, when a new customer selects this class, the below wording will appear under the class in the Registration Form. The customer will select Yes or No from the drop-down. It defaults to No.

If the customer selects Yes and submits the Online Registration form, the following occurs for the trial class:

- Class tuition is not posted for this class, even if you have auto-posting set to Yes. Trials can not have tuition auto-posted.
- The customer's confirmation email and your organization's notification email will include Trial beside the class name.
- In your system, all the locations that show the enroll type will set this student's enrollment type as Trial for this class.
- The archived Online Registration will show this class was selected as a Trial.
- The system does not set a future drop date. This means the student enroll type of Trial will remain Trial until your staff either drops the student from the class or changes their enroll type to Trial-Enrolled.

Develop procedures for your staff on how to handle Trial students after the trial class has been attended. See **Staff Procedures for Trial Enrollments** for more details.

Staff Procedures for Trial Enrollments

To keep all of your staff on the same page, it's a good idea to develop a procedure for handling trial enrollments. This will ensure that your enrollment reports are consistent and accurate.

Establish a workflow to:

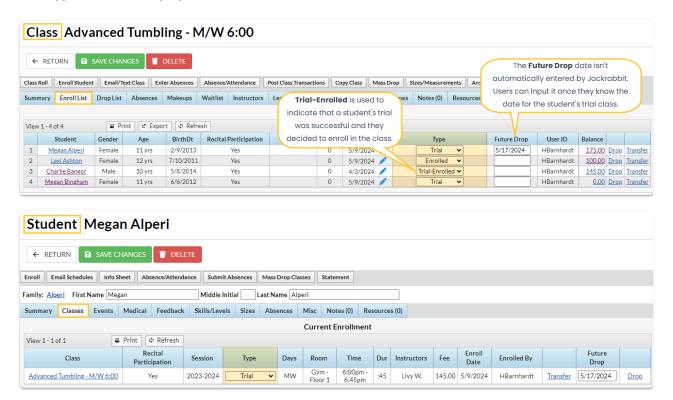

- ✓ Track incoming trial enrollments.
- Handle the enrollment for students who don't enroll in the class after the trial.
- Change the Enroll Type for students who liked their trial and then enrolled in the class.

Track Trial Enrollments

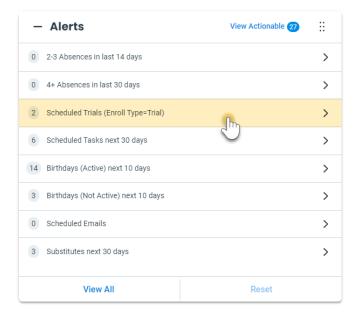

The ability to track and report on trial enrollments is based on the Enroll Type.

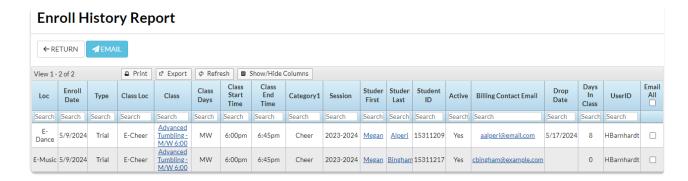

The Enroll Type of **Trial** is assigned to all trial enrollments, whether they come inthrough Online **Registration** or were **enrolled from within Jackrabbit**, which allows you to **report on trial enrollments** using reports that include the Search Criteria or Filter = Enroll Type.

The **Type** (Enroll) is displayed in both the *Class* record and the *Student* record.

The Scheduled Trials alert on the Executive Dashboard highlights the number of trial enrollments that are scheduled in a gray circle. Users with the right permissions can click the Scheduled Trials alert to open the Enroll History report search criteria page pre-filtered for Enrollment Type = Trial.

Change Enroll Type Based on Trial Outcome

- ✓ If a trial becomes an enrolled student, delete any Future Drop date from the class Enroll List tab and change the Enroll Type to Trial-Enrolled. This can also be done from the student's Classes tab.
- ➤ If the student doesn't enroll after taking the trial class, staff should make sure aFuture Drop is in place that will automatically drop the student. If not, the student should be dropped from the class using the date after the trial occurred.

If no change is made, and the student remains as Enroll Type = Trial, it's possible that the student will be excluded from your tuition posting. This could happen if you always clear the checkbox for Post tuition to students with Enroll Type = Trial when using Post Tuition Fees.

Report on Trial Enrollments

After a trial is completed, there are three reports that track trials:

- Drop History
- Enroll History
- Enrollment Detail

Select **Trial** as the *Enroll Type* in the *Search Criteria*.

If a trial does not become a student or was a no show, leave the *Enroll Type* as *Trial* and drop the student from the Class. Enter a drop reason (Example: *No Show*).

Report on trials that did not become students by going to Students (menu) > Student Reports > Drop History. Be sure to select Enroll Type = Trial.

Track students who enrolled from a trial by setting the Enroll Type in Students (menu) > Student Reports > Enrollment Detail to Trial - Enrolled.

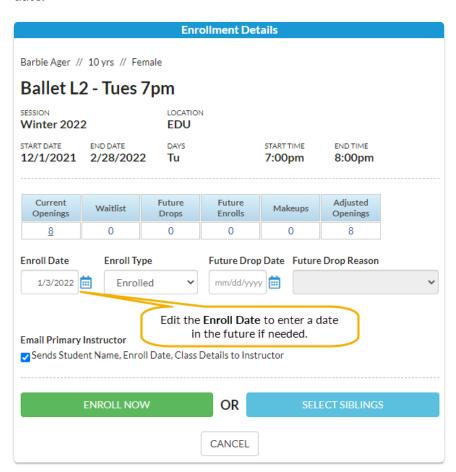

Create a Future Enrollment

When Jackrabbit is set to *Allow Future Enrollments*, staff can change the enroll date to a date in the future when **enrolling a student from within Jackrabbit**. This feature is not active in your Jackrabbit system unless you make it available.

To change the setting:

- 1. Go to the Gear (icon) > Settings > General > Organization Defaults (left menu).
- 2. Scroll down to Class Settings (section).
- 3. Set Allow Future Enrollments to Yes.
- 4. Click Save Changes.
- 5. Log out of Jackrabbit and then log back in for the change to become active.

When enrolling students from within Jackrabbit, staff has the option to set the Enroll Date to a future date.

Families cannot future enroll students through Online Registration or the Parent Portal. All future enrollments can only be done by a Jackrabbit User. Once a future enrollment has been created in

Jackrabbit, the future enrollment date cannot be changed, you must delete the enrollment and reenroll the student with the correct date.

Important Notes on Future Enrollments

- Into account. If your organization allows future enrollments, the report shows the number of future enrollments and the adjusted openings (the class's maximum size minus the number of students enrolled). If the adjusted openings count is less than 1, it will appear in yellow.
- During online registration, the number of future enrollments in the class will always be factored into the number of openings available to prevent a family from creating an overbooking. To further reduce the chance of overbooking, it is possible to allow future enrollments to impact the openings in a class when using the Quick Registration form. From the Gear icon, select Settings > Online Registration > Settings (left menu) > Class Search Settings > What impacts the number of Class Openings? (section), and set Future Enrolls to Yes for Quick Registration.
- Future enrollments are enrolled and active in the class on the date of the future enrollment at 5 am Eastern time.

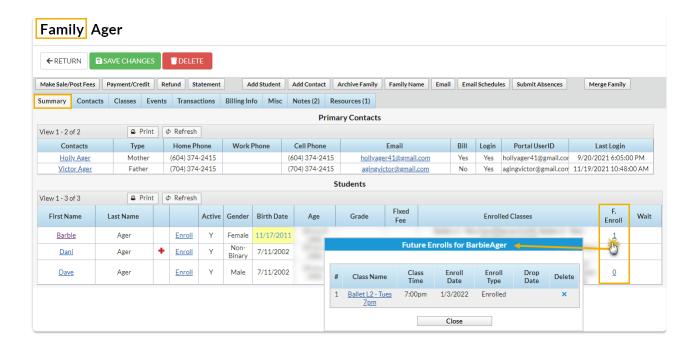

Future Enrollments are best used when the student cannot attend until after the class start date. The student isn't active in the class until the Future Enroll Date. If the student isn't active during the Tuition Billing Cycle, the student may be excluded when you Post Tuition Fees.

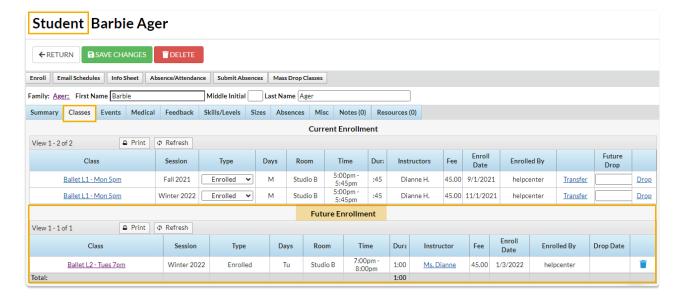

View Future Enrollments

If a student is enrolled with a future start date, the future date details can be seen via the *Family* record, on the *Summary* tab, and via the *Student* record, on the *Classes* tab. Details of the future enrollment can also be accessed from the Weekly View calendar.

Family Summary Tab

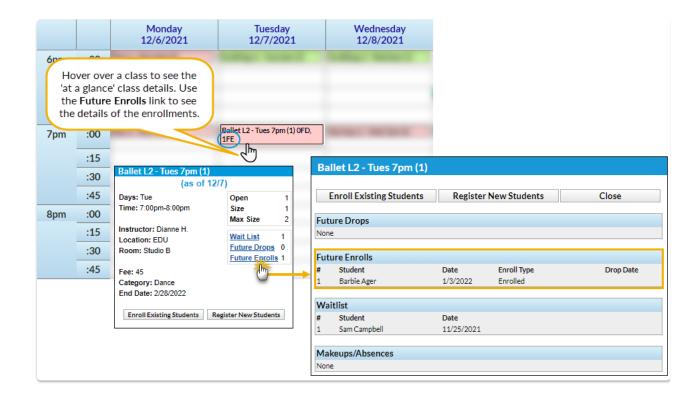

Student Classes Tab

Weekly Calendar

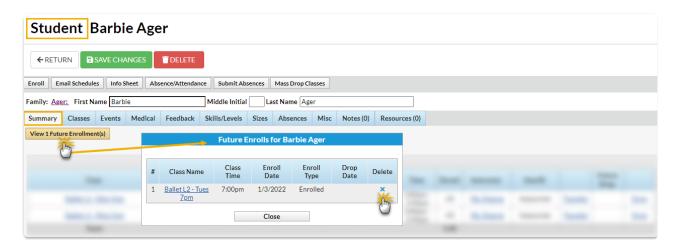

Click the **Weekly Calendar** button on the *Executive Dashboard*. The number of future enrollments in a class is indicated (**FE**) after the class name.

Hover over the class name and a small window with class details appears. Use the **Future Enrolls** link to view details of the future enrollments.

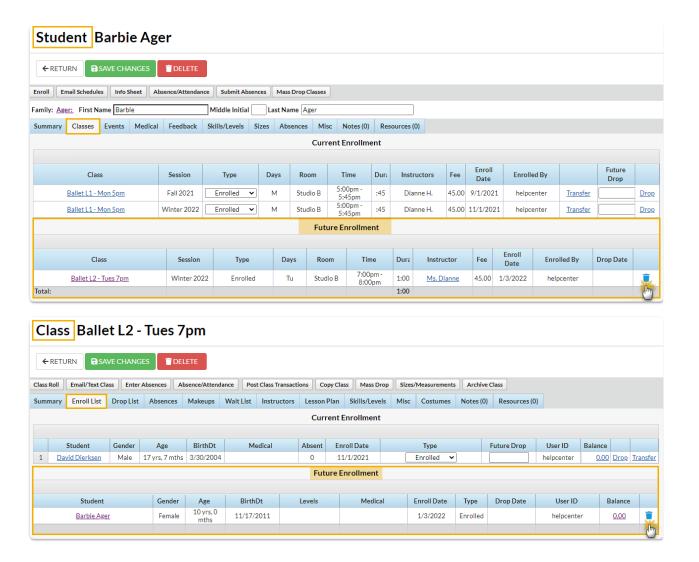

Delete a Future Enrollment

Future enrollments can be deleted from the Summary tab of the Student record.

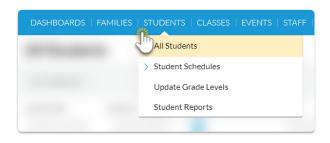

- 1. Click View # Future Enrollment(s) on the Summary tab of the Student record.
- 2. In the Future Enrolls for (student name) window, use the X to delete a future enrollment.
- 3. Click **OK** in the confirmation pop-up windows.
- 4. Click Close.

To accommodate different workflows, future enrollments can also be deleted from the *Classes* tab in the *Student* record and the *Enroll List* tab of the *Class* record using the **Trash Can** icon in the *Future Enrollment* section.

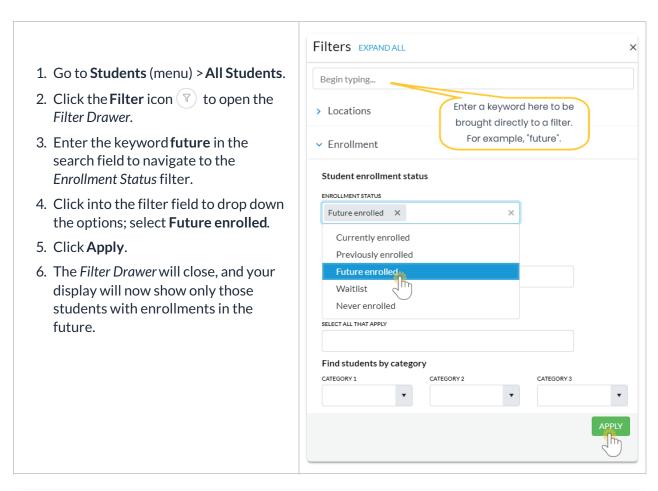

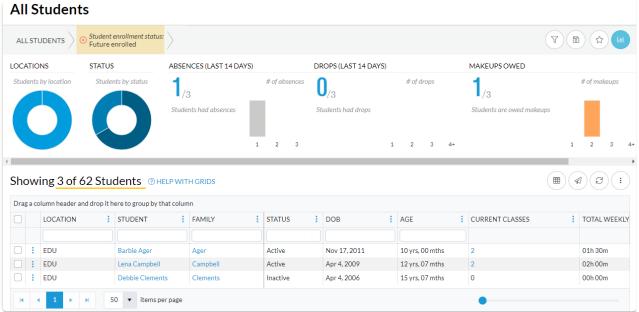

Report/Track Future Enrollments

The best way to track future enrollments in Jackrabbit is with the All Students page from the Students menu.

Create a listing of all students with enrollments in the future using the *Enrollment Status* filter **Future** enrolled.

Manage Class Waitlists & Priority Ordering

Waitlists help manage class demand efficiently and ensure fairness for your students. They can also

boost participation rates, minimize no-shows, and optimize resource allocation.

- right Get instant alerts on the Executive Dashboard when classes have openings so you can fill spots quickly.
- rioritize your waitlist based on enrollment status, skill level, date added, and more.
- 🖈 Plan for the future; class waitlists indicate how popular a class is.

Permissions control the ability of your Users to see certain data and take specific actions. Before moving forward, review User Permissions for Waitlists.

Expand/Collapse All

- Access Waitlists
- Add an Existing Student to a Waitlist
- Waitlist Through Online Registration
- Prioritize Students on a Waitlist
- Enroll Students From the Waitlist
- Delete a Student from a Waitlist
- Message Waitlisted Students (Email, Text, or Push)
