

Transfer a Student to Another Class

When a student leaves one class to attend another (especially within the same session), **Transfer** the student to another class. When you transfer a student, they are dropped from their current class and enrolled into the new class on the dates you assign. Both the primary instructor for the class the student is transferring into and the primary instructor the student is transferring from will receive email notification of the change.

Any scheduled future drops for the student are automatically added to the new class.

Transfer a Student

From the *Class* record, choose the **Enroll List** tab.

1. Locate the student who is transferring and click the **Transfer** link.
