

# Parent Portal Password Reset Issues

If a parent advises you that they are not receiving a password reset email, you can verify that it was sent by viewing the email history on the *Misc* tab of the *Family* record.

Click the **View Sent Emails** button and look for emails with the Type=Portal Password. These will confirm that the password resets were sent. You can even view a copy of the sent email.

The screenshot displays the 'Email History' section of a system. At the top, a blue header reads 'Email History'. Below it, a light blue box contains an information icon and the text '180 days of email history is saved'. A yellow callout box points to the 'Type' column of the email list, stating: 'Confirms the date and time that Jackrabbit sent the password reset email and which address it was sent to'. The email list has columns for 'Date Sent', 'Status', 'Type', 'Subject', 'Recipient', 'To Address', and 'From Address'. Three rows are visible, with the first row's 'Type' highlighted in yellow. A yellow dashed arrow points from the 'View' link of the first row to a preview box. The preview box contains the following text: 'Your customer portal password has been reset by an administrator. Your Portal UserID is: hollyager41@gmail.com Your Portal Password is: 25h6bcxz (Please note that passwords are case-sensitive) This is a temporary password. You can change it after you login. You may login at our [Portal Login](#) ~Help Center Parent Portal/Jackrabbit Support'.
