

Staff Portal Time Entry - Clock In/Out Method

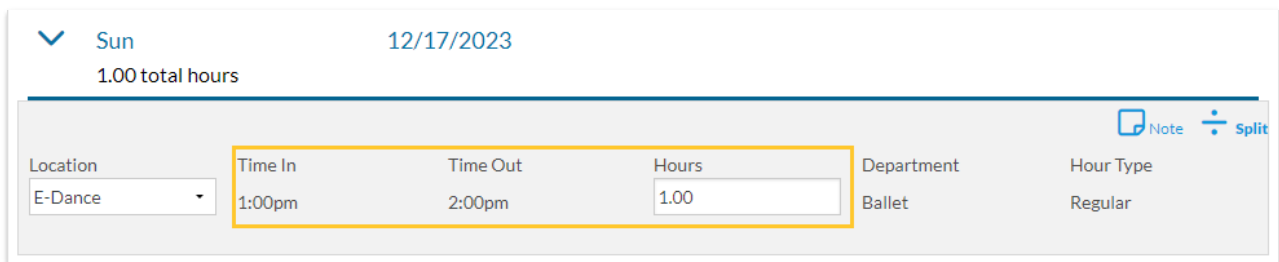

Staff with a time entry method of *Clock In/Out* will click the **Clock-In** button at the start of each workday, and the time will be recorded for them.

At the end of the day, the staff person will click the **Clock-Out** button to clock out. The time will be recorded for them.

The Time Clock calculates the **Hours** worked based on the **Time In** and **Time Out**.

If the staff person is set to **Yes** for the **Can Split time between Departments?** setting on the *Portal Settings* tab of their *Staff* record, a *Split* link appears after clock-out. This allows the staff person to split out their total hours for the time entry between as many departments or locations as necessary. The split hours must add up to the total hours for the time entry before the system will allow the split to be saved.
