## Estimated Gross Wages

The option to display *Estimated Gross Wages* is only available using the *Department Detail* and *Department Summary* formats.

Estimated Gross Wages is also reported on the *Staff Summary by Dept with Estimated Gross Wages*. This is called estimated because the Time Clock does not calculate overtime dollars, only regular hour dollars. Jackrabbit also does not calculate any withholdings, deductions, or payroll taxes.

The estimated gross wage calculation is based on the hours the staff person enters into the time clock multiplied by the appropriate pay rate. If *Department Pay Rates* were entered, Jackrabbit matches up the *Time Entry Department* with the *Department Pay Rate*. If a *Time Entry* doesn't have a *Department Pay Rate*, the *Base Hourly Rate* is used to calculate *Estimated Gross Wages*. (Pay rates for each staff member can be entered in the staff person's *Compensation* tab.)

*Only the two reserved Pay Rates - Base Pay Rate and Department Rate - can be used to calculate Estimated Gross Wages.*
