

# Enroll History Report

The **Enroll History** report provides you with a list of students and the date each student was placed into a class, based on the filters (Search Criteria) you select.

You can find this report under the **Students** menu > **Student Reports**.

- ★ Generate a report of previously enrolled students who have not enrolled in a new class.
- ★ Identify inactive students using the filter for **Current Student Status**.
- ★ Send an email to all, or select students directly from the report results, including archived students in the Lead File (after 11/11/2015).

## Search Criteria

Filter your list of students using any or all of the available Search Criteria, and Jackrabbit will compile a report of who meets ALL of the criteria chosen. In this example, we have selected a **Current Student Status of Inactive**.

- Set a time frame in the Search Criteria.
- Hold down the shift key to select all, or **Ctrl** to select more than one from the drop-down lists.

**Note:** Although archived families are included in this report, if there is no email address for the family in the Lead File, they must be restored to the main system, add the email address, and re-archive the family.

Jackrabbit defaults to tracking absences rather than attendance. If you are set up to track by attendance, this report gives you the option to view the *Last Date Attended* by the students. Refer to [Track Absences or Attendance](#) for more details.
