

Lesson #15 - Enrollment Reports

Reports

Jackrabbit offers great flexibility in reporting with over 100 reports for families, students, classes, staff, enrollment, financial information, and more!

These reports come in a few different formats.

Some reports are built to display in different output formats including PDF, Excel, and Word.

- These reports are customized using display settings. Select Excel or Word as the output format and use those programs to make any further customizations.
- Examples: [Deposit Slip](#) and [Paid Fees](#)

Learn more about [Report Output Formats](#).

Deposit Slip				
1/1/2021 - 6/30/2021

There are many reports that display your data in a **Table** format. This format is gradually being updated to the Grid format (below).

- Tables are customized through sorting, showing or hiding columns, and more.
- Examples: [Family Balance Summary](#) and [Email Listing Report](#)

Learn more about [Working with Reports - Table Style](#).

New Jackrabbit reports are being created in a **Grid** format. Reports in table format will be gradually moved to grid format. The grids are robust and allow you to do much more with your data!

- Grids are customized by grouping your data, arranging the order of the columns, filtering for specific information, and more.
- Examples: [Student Detail Report](#) and [Staff Certifications](#)

The Reports Menu

Jackrabbit offers great flexibility in reporting with over 100 reports for families, students, classes,

staff, enrollment, financial information, and more. All reports can be accessed from the *Reports* menu.

There are a few different ways for you to navigate through the reports to find the one you are looking for:

- **Report Categories & Tabs** Reports are organized into categories based on the area of Jackrabbit they relate to.
- **Find Reports** Search by keyword to locate your report.
- **My Reports** Customize your Reports menu to create quick and easy access to your most frequently used reports.

The table format is gradually being updated to a new, more powerful grid format. All new reports in Jackrabbit will be created using the [grid format](#).

Work with the Information in Grids

Throughout Jackrabbit, you will see grids, which are sometimes referred to as tables. These grids display the data you have entered into Jackrabbit; they are incredibly robust - allowing you to group, sort, filter for specific information, and more. **Note: the features available in each grid throughout Jackrabbit may vary.**

Favorites - Save your Report Criteria Selections

Saving the criteria for reports is a huge time saver and is available in most Jackrabbit reports. We refer to them as **Favorites** and they are used to store regularly used search criteria and display settings for reports. Favorites allow you to quickly recall your selections; there is no need for you to select the same criteria every time you run the report.

Favorites also contribute to your reporting accuracy and ensure consistent reporting. When you save your criteria selections as a Favorite you can create your reports quickly and with confidence, knowing that the same data is being pulled into the report each time it's run.

Create and name multiple Favorites with any combination of criteria and settings. A Favorite can be *Public* (shared with all User IDs) or *Private* (only available to the User ID that created the Favorite).

PDF

Portable Document Format is the standard for the exchange of documents across different formats. When a document is saved as a PDF file, it is converted to PDF, it looks the same way it would if you printed it. A PDF viewer, such as Adobe Reader, is required to view a PDF file.

Excel

Excel files are spreadsheet files and are generally used with Microsoft Excel.

HTML

Hypertext Mark-up Language is the standard language used to create web pages.

RTF

Rich Text Format is a document file format used by Microsoft products, such as Word and Office.

Text

Text Files generally are pure text with very little formatting. Files saved as .txt files can generally be read by any program that is capable of reading text.

Tiff

Tagged Image Format Files is most often used with graphic, image, and desktop publishing programs but can be used on any operating system.

Understand Enrollment Types

In the *Student record > Classes tab* you will see the enrollment type for the class. The drop-down list can be edited on the Drop-down List Editor page (*Gear icon > Settings > General > Drop-down Lists > Student > Enroll Type*). Some Enrollment Types (reserved) are the ones that Jackrabbit has created and cannot be deleted. You can create additional ones that match the needs of your business.

Enrollment Type	Description
Enrolled	If the student is currently enrolled in an <i>Active</i> class, their <i>Enroll Type = Enrolled</i> and Class(es) appear in the <i>Current Enrollment</i> section of the student's <i>Classes</i> tab.

Drop	<p>The student did not complete the class. The student was dropped before the class was completed using the <i>Drop</i> link. This is considered a 'true drop' and will appear on the <i>Drop History Report</i>. If a student is dropped from a class, the class appears in the <i>Past Enrollment</i> section of the student <i>Classes</i> tab. Note: <i>It's important to archive classes (rather than drop students from class after it ends) so that reports will only display 'true' drops. See Archive Classes.</i></p>
Transfer	<p>A student is considered transferred when they have been moved from one class to another. This creates a <i>Past Enrollment</i> record, but this is not considered a drop. It is treated as a <i>Transfer</i> and does not negatively reflect on the school/class/teacher and is excluded from the drop reports.</p>
Trial	<p>The ability to enroll in a class as a trial is a per-class option. When a student enrolls into a class on a trial basis, their <i>Enroll Type</i> = <i>Trial</i>. See Trial Enrollment.</p>
Trial-Enrolled	<p>If a trial student enrolls in a class, it is good practice to change the student <i>Enroll Type</i> to <i>Trial-Enrolled</i>. See Trial Enrollment.</p>
Waitlist	<p>The student has been placed on the class waitlist. Technically, they are not enrolled in the class and a staff member must enroll them. Refer to Enroll a Student from a Waitlist for more details.</p> <p>The class will be listed in the Student record in the Waitlist section.</p>

Enrollment Type is column.

Did the student complete the class?

In the *Past Enrollment* section (*Student Classes* tab), the **Comp?** column indicates whether the student completed the class (**Yes**) or did not complete the class (**No**).

Drop History Report

The **Drop History** report lists students who have dropped classes in the time frame designated in the Search Criteria. You can also run this report to show students who have transferred or completed classes.

This report can be found under the **Students** menu > **Student Reports**.

- ★ Run the report to identify future staffing needs.
- ★ Email to all, or select families directly from the report results, including archived families.
- ★ Includes students archived to the Lead File (after 11/11/2015) in the report results.

Search Criteria

To find the classes students dropped, use the **Search Criteria**.

- Select a time frame in the Search Criteria.
- Search for a specific class using the **Search** link (**Dropped from Class**).
- Select **Drops Only**, **Completed Class**, or **Transfers** from the drop-down menu for **Show Drops**.
- Hold down the shift key to select all **Show Drops**, or **Ctrl** to select more than one from a list.

Use this button to **Show/Hide Columns** in the report.

Click the top checkbox to select all to email.

Note: Although archived families are included in this report, if there is no email address for the family in the Lead File, they must be restored to the main system, add the email address, and re-archive the family.

A history of emails sent from this report is kept in the *Family* record, *Misc* tab > *View Sent Emails* for

365 days.

Enroll History Report

The **Enroll History** report provides you with a list of students and the date each student was placed into a class, based on the filters (Search Criteria) you select.

You can find this report under the **Students** menu > **Student Reports**.

- ★ Generate a report of previously enrolled students who have not enrolled in a new class.
- ★ Identify inactive students using the filter for **Current Student Status**.
- ★ Send an email to all, or select students directly from the report results, including archived students in the Lead File (after 11/11/2015).

Search Criteria

Filter your list of students using any or all of the available Search Criteria, and Jackrabbit will compile a report of who meets ALL of the criteria chosen. In this example, we have selected a **Current Student Status of Inactive**.

- Set a time frame in the Search Criteria.
- Hold down the shift key to select all, or **Ctrl** to select more than one from the drop-down lists.

Enroll History Report

Search Criteria

Note: Although archived families are included in this report, if there is no email address for the family in the Lead File, they must be restored to the main system, add the email address, and re-archive the family.

Jackrabbit defaults to tracking absences rather than attendance. If you are set up to track by attendance, this report gives you the option to view the *Last Date Attended* by the students. Refer to [Track Absences or Attendance](#) for more details.

Enrollment Detail Report

The Enrollment Detail Report is extremely powerful and allows you to create multiple reports based on current and historical class enrollment. You can find this report under the *Students (menu) > Student Reports > Enrollment Detail*.

- ★ Spot enrollment trends effortlessly, enabling you to discover whether scheduling more popular classes will boost revenue.
- ★ Check enrollment by sessions, such as the summer session, to recognize seasonal trends.
- ★ Monitor retention by student or instructor.
- ★ Customize your report using the *Show/Hide Columns* button. Select from over 35 columns of available data.
- ★ ...and so much more!!!

**Expand/Collapse
All**

- ▢ [Filter Students Using Search Criteria](#)
- ▢ [Select Display Settings](#)
- ▢ [Report Results](#)
- ▢ [Compare Enrollment from Session to Session](#)

Analyze Retention by Instructor

Enrollment Snapshot Reports

The Enrollment Snapshot 1 and 2 reports are not historical and only look at **current enrollment at the time the report is generated**. Each creates, in different formats, a snapshot of the current enrollment and includes current revenue (current size x tuition fee) vs. the maximum revenue (max size x tuition fee).

This report is intended to be a quick "snapshot" of your enrollment multiplied by the tuition fee. Any discounts, prorating, fixed fees, etc. are not included in the calculations of this report.

For a detailed look at class or event revenue, we recommend using the [Class/Event Revenue Summary Report](#).

Transfers that have taken place within the selected date range can inflate the enrollment number as it will show as enrollment on the initial class and the transferred class.
