

# Work with All Classes - View Search, and Take Action

Permissions control your Users' ability to see certain data and take specific actions. Before proceeding, review [User Permissions for All Classes](#).

- ★ View optional **data visuals** for key information at a glance with interactive charts.
- ★ Drill down to specific classes using filters organized in a slide-out **filter drawer**.
- ★ View classes in a **filtered calendar** (daily, weekly, or room view) and enroll students.
- ★ Save your **favorite view** (filters, selected columns, etc.) as your default view.
- ★ Display a list of classes in a powerful **grid**: you can group, sort, and customize the information.
- ★ **Take Action** - add/copy classes, enroll students in classes, send messages, archive classes, and apply **mass actions** to multiple classes.
