

Work with All Classes - View Search, and Take Action

Permissions control the ability of your Users to see certain data and take specific actions. Before moving forward review [User Permissions for All Classes](#).

All Classes, located under the *Classes* menu, generates a list of all active and inactive classes in the All Classes grid. From here you can access all your class data.

- ★ Drill down to specific classes using filters organized in a slide-out **filter drawer**.

- ★ Save your **favorite view** (filters, selected columns, etc.) as your default view.
- ★ Display a list of classes in a powerful **grid**: you can group, sort, and customize the information.
